1850 SUPERCAB

STABICRAFT® CLASSIC GOES NEXT LEVEL

The 1850 Supercab is a reboot of a classic Stabicraft® model, revisited and reinvigorated with a new and modern aesthetic reflective of Stabicraft's latest design DNA.

We have listened to feedback on the previous model and have incorporated some significant changes that greatly improved what was already a sensational boat.

It's longer, wider, drier, carries more fuel and delivers a massive interior volume where even the biggest of statures will feel comfortable at the helm.

STABICRAFT®
ADVENTURE WITH CONFIDENCE

1850 SUPERCAB

FORECASTLE PLATFORM

The bow configuration has undergone a major upgrade. The bow rail is now bolt-on and it's supplied with a powder coated finish as standard. The bow coamings have been flared out to eliminate the traditional nose cone and to produce a larger platform on the bow with the fairlead moved sub-flush where it's out of the way. A forward anchor bin now accommodates a drum winch on the Sportfish package and the compartment is self-draining through scuppers in the forward coamings, well above the waterline. A hatch is included for light & ventilation in the forward cabin and this provides easy access to the anchor when recovering or deploying the anchor manually.

TRANSOM OPTIONS

The upper transom is shared with the 1850 Fisher and includes options for a removable bait board assembly or a fully-equipped Live Bait Tank with a sight glass in the front. Both options are powder coated as standard. The familiar fold-down corner seats also double as a useful step for climbing into or out of the boat and a transom walkthrough gate is optional on the port side. A large So-Pac hatch encloses a large rigging box for battery and rigging accessories.

UPDATED COCKPIT

A new dash design accommodates up to 16" displays and in combination with the full-width upper binnacle provides plenty of space for all the electronic bells and whistles. Cabin lining is included in the Sportfish package consisting of EVA liners to match the coaming tops. There is accommodation for either flush mount or side-mounted throttles and the EVA padding extends to the footrest and centre threshold.

SPECIFICATIONS

Hull Length	5.70m (18.4ft)
Beam Width	2.30m (90.6in)
Boat Height Min/Max	2.44m (95.9in)
Dry Hull Weight	931kg (2053lb)
Maximum Persons	6
Maximum HP Limit	140hp
Min Recommended HP	115hp
Motor Leg Length	25in
Max Aux Motor HP	15hp
Internal Beam	1.72m (67.8in)

- 6x rod holders and 4x multi-holders in gunnel tops
- 1850 Supercab graphics kit

1850 SUPERCAB PACKAGES

ADVENTURE

The all-new 1850 Supercab is a leaned out, meaned out, fighter jet of the ocean offering the performance, stability, and safety of a much larger vessel.

The "Adventure" package is a no-fuss package, aimed to get you out on the water in a hard top boat on a budget while leaving a wide scope for further upgrades to suit your on water demands.

SPORTFISH

The 1850 Supercab Sportfish package raises the level of standard fitment by also including popular features including a 150L fuel tank, wiper, stage-1 paint, bait board and more. EVA foam is standard fitment on coamings and topside surfaces while full EVA flooring remains a selectable option.

This package of popular options caters for the buyer looking for a compact hardtop boat that ticks all the boxes.

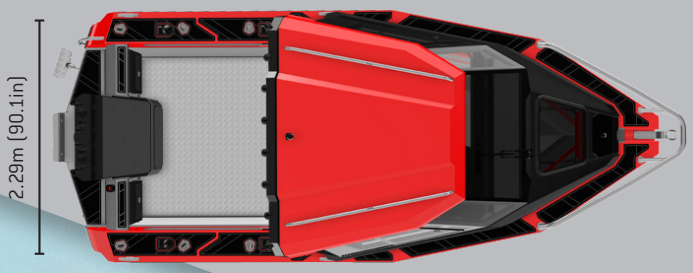

PROFISH

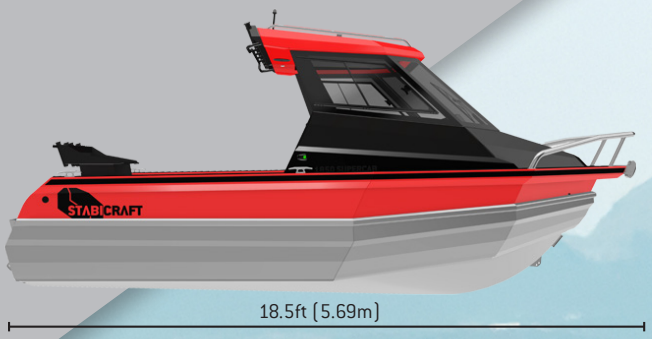

So you want all the features but without the headaches of a bigger boat? The 1850 Supercab Profish steps up with all the creature comforts included. EVA foam lines the cabin interior, gunnel tops and the floor, illuminated by discretely positioned ambient lighting.

With suspension seating and closed cell baffling on board, both the ride and the sound are dampened for your comfort.

A live bait tank sits a top the superfish transom and full paint brings your choice of colour down to the bottom of the life ring.
