2200 SUPERCAB

A NEW ERA OF CONFIDENCE

The 2200 Supercab represents the latest evolution in Stabicraft styling.

Building on the legacy of the legendary 2100 Supercab, it takes everything boaties loved about its predecessor and adds even greater capability.

Athletic, responsive, and efficient, the 2200 Supercab is designed to fish hard, travel far, keep the family safe while having fun on the water.

It pairs customer-driven features with performance that provides all-round confidence.

Fuel Tank Capacity	250L (66gal)
Total Sealed Chamber Volume	1700L (60.0ft3)
Life Ring Chamber Volume	1140L (40.3ft3)

See final page for added options

2200 SUPERCAB FEATURES

A SHARPENED ARROW

The forward sections of the arrow pontoon have received a new treatment that reduces the chine shoulder under the pontoon joins and softens the hull entry in chop.
Not only does it further soften the ride, but it improves the look of the boat as well, creating a sleeker appearance with increased taper towards the bow.

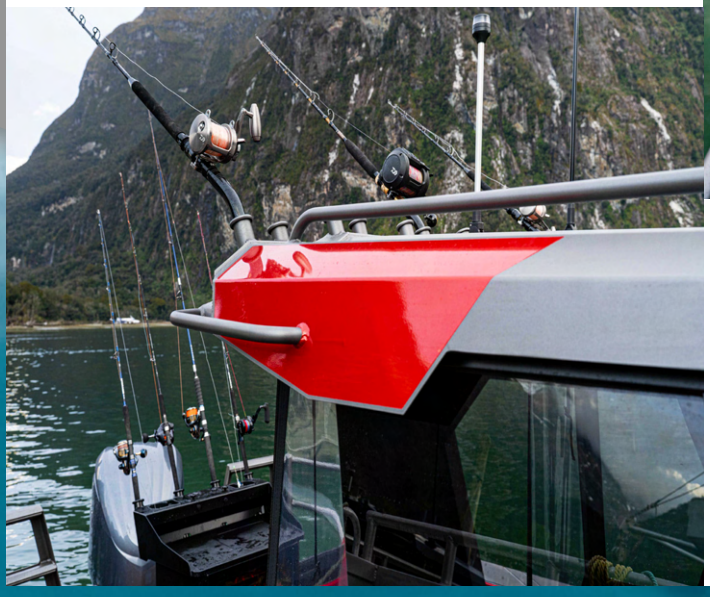

BRIGHTER, MORE SPACIOUS CABIN

An increased side window-to-cabin-side ratio allows for larger, fully framed sliding windows, bringing more natural light into the cabin and enhancing visibility.
Combined with improved helm ergonomics and exceptional sightlines, the result is a cabin that feels more spacious, bright, and comfortable.

USABLE SPACE EXTENDED

Framed by the iconic Stabicraft® blade bow rail, a large flat, platform area exists at the bow, formed by the blending of the wing coamings into a wide nose. The 2200 Supercab extends usable space all the way forward to the anchor fairlead, providing a place at the bow to stand confidently when casting lures or retrieving a mooring line.
The bonnet sits low and flat to maintain visibility over the forward hatch and anchor well, which accommodates a large 8mm Series drum winch.

EVOLVED STABICRAFT DNA

The roof features a new drop-down section at the aft pillar, while the aft handrail now wraps around the cabin side to provide secure footing when moving forward and an easy grab point when boarding, disembarking, or standing alongside the dock.

2200 SUPERCAB PACKAGES

ADVENTURE

The 2200 Supercab Adventure represents the base boat before any options are added, with full flexibility to tailor it to your needs.
As a starting point, it is already well equipped with essential features like sliding side windows, bow rail, blade seat bases and forward cabin bunks.
The Adventure appeals to those who are looking for the qualities of a larger boat and moving up from smaller models or those looking for a spartan appointment suitable for heavy-duty use.

SPORTFISH

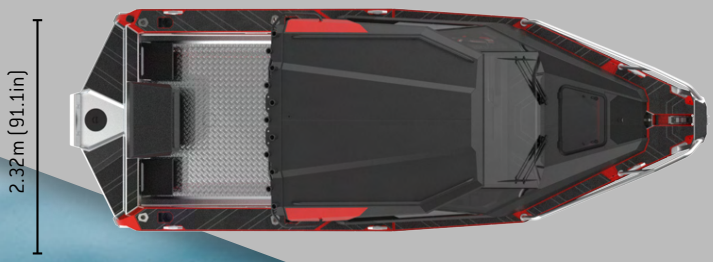

The 2200 Supercab Sportfish is an intermediary trim level that includes everything from the Adventure and the most commonly selected trim options and creature comforts chosen by customers.
It represents a realistic and relatable trim level that is easy to live with, while leaving scope to add any additional enhancements you need.
An additional graphic on the side of the coaming, in front of the tail graphic, identifies the Sportfish Package.

PROFISH

The 2200 Supercab Profish has all the trimmings you'd expect from a top-tier package, including everything included in the Adventure and Sportfish, with top-to-bottom paint for the full-colour look, soft EVA decking underfoot, and multiple lighting enhancements that bring the boat to life at night.
Accent it with the transom and furniture of your choice and build it into the boat of your dreams.
An additional graphic on the side of the coaming, in front of the tail graphic, identifies the Profish Package.
